WEEKLY REPUBLICAN—1887.  
DAILY PUBLIC LEDGER—1882.

MAYSVILLE, KY., TUESDAY, MARCH 31, 1903.

ONE COPY—ONE CENT.

Hurrah for the days that are drawing near,  
When the hills will again be green,  
When the sky will be soft and warm and clear,  
With gladness spread o'er the scene;  
When the dandelions will bravely grow,  
Like golden dots on the slopes,  
And all of the sweet South winds that blow  
Will add to our fondest hopes.

*The Optimist.*

Ah, yes! The winter will soon be gone,  
And the grass will begin to sprout;  
The mowers will rattle across the lawn  
And the birds will be bursting out;  
But after the flowers have bloomed, alas!  
The days will keep slipping by;  
And the first thing we know it will come to pass  
That next winter's snow will fly.

*S. E. Kiser.*

Other business houses were damaged, and the loss to the Grand Opera-house is estimated at \$4,500. The Masonic Lodges, including the Blue Lodge, Knights Templar and Royal Arch, which occupied the third floor over Tabbs, lost \$2,000 in regalia, etc., and had \$600 insurance.

Mr. Jacob Helmer, Jr., who has had the smallpox in East Fourth street, has recovered, is out in town, the house has been formaldehyde, the sign taken down, and everything goes "merry as a wedding bell." At this is only one of several cases that has been discharged cured, it is unreasonable to suppose that the average "sensationalist" will start the report that every one of the patients is well. This is one rule that doesn't work both ways.

**No More Smallpox Cases in Maysville Since Last Saturday.**

For the benefit of those who desire to know the exact truth, THE LEDGER states there has not been single new case of smallpox in Maysville since last Saturday.

**ALL DEAD NOW!**

**Last of Three Men Who Came to Maysville For "Lincoln Guns."**

The late William Goodloe of Danville was the last of a famous trio.

In the spring of 1861 William Nelson, a native of Mason county and then a Lieutenant in the Navy, was selected by President Lincoln for the difficult task of providing the Union men of Kentucky with arms for their own protection and the defense of the Union cause.

The first shipment into the state was made from Cincinnati to Maysville and was consigned to the late Hamilton Gray, an enterprising and successful merchant, a staunch Union man and a true patriot. They were landed from the boat at night, were received on the wharf by Mr. Gray and other gentlemen, and were at once conveyed to Mr. Gray's place of business, at Second and Sutton streets.

This was the first advent of what were afterward known as the "Lincoln guns," which proved so potent in preventing Kentucky from being forced from her moorings, as had been done in other states.

A few days later Union men came from the interior for their respective quotas of these arms, S. S. Fry, Wellington Harlan and William Goodloe coming from Boyle county. The share of the arms assigned to Boyle was loaded into a wagon, and these three men, Fry, Harlan and Goodloe, each with a gun on his shoulder, walked by the wagon's side as a guard through the streets thronged by an excited crowd, out on the old Lexington turnpike and thence through many a hostile community to Danville.

**What's In a Name?**

Everything is in the name when it comes to Witch Hazel Salve. E. C. DeWitt & Co. of Chicago discovered some years ago how to make a salve from Witch Hazel that is a specific for piles. For blind, bleeding, itching and protruding piles, for cuts, burns, blisters and all skin diseases DeWitt's Salve has no equal. This has given rise to numerous worthless counterfeits. Ask for DeWitt's, the genuine. J. Jas. Wood & Son.

The Rev. T. DeWitt Talmage says—

"A newspaper whose columns overflow with the advertisements of pure men has more influence in attracting attention to and building up a city or town than any other agency known to me. The reason is that there is business. Capital and labor will locate where there is enterprise only. Never on earth is so strong to pull up a town as newspaper well patronized and this power should be appreciated."

THE Kentucky Court of Appeals gave BECKHAM's candidacy a black eye by holding that the Committee had no right to raise the question of the eligibility of any one desiring to become a candidate. The Court also held it had no power to enjoin primaries.

EVIDENTLY, says The Commercial Tribune, the Court of Appeals believes that the sole tribunal in Kentucky vested with the right and the power to determine the question of eligibility is the Legislature, and, equally evident, Governor BECKHAM doesn't like the outlook. Whether he will continue his determination to make the race depends on many things. He is undoubtedly the strongest man of his party in Kentucky—or would be if the Court of Appeals had construed the eligibility provisions of the Constitution of the state. If, as has been suggested in many quarters, Judge CANTRELL will fall heir to the succession of the machinery of the party, should BECKHAM quit the race, there will be a picnic in the gubernatorial race in which the opening and distributing of the hampers would not be committed to the hands of that noted member of the Kentucky judiciary.

THE Fiscal Courts of seventy-five counties in the state will meet on April 7th, and at this meeting a proposition will be made to them to make an appropriation towards the fund for a Kentucky Building and Kentucky exhibit at the Louisiana Purchase Exposition. This county is one of the seventy-five. It is to be hoped that this matter will be taken up by the Magistrates and given full and favorable consideration. This is a work that concerns the entire state. Mason county is as deeply concerned as any, and cannot afford to be remiss in doing its share.

The Kentucky Exhibit Association has laid plans which, if carried out in full, will give the state the finest advertisement of its resources and products it has ever had. It has secured space many times larger in each department than the state had at the Chicago World's Fair; it has already begun the work of collecting exhibits; it has selected a design for a handsome State Building; it is pushing its work in every way, and the people of the state cannot afford to be backward in doing their share. The gentlemen connected with the Association are doing this work for nothing—purely out of their interest in seeing the state well represented, at what it is now assured will be the greatest of all the World's Fairs. The LEDGER believes Mason county will be found in line with the other progressive counties of the state in helping this good work.

## Oliver

Gave to the world the Chilled Plow. The magical word Oliver is a guarantee of quality.

almost twice as long as a part chilled in the imitation way. Notice one peculiarity of an Oliver Plow: Note this well, for it means much to you—An Oliver Point also includes the Cutter. When you put on an Oliver Point you have an entire new cutting surface; you virtually have a new plow. Upon other plows the point and cutter are separate, and you have to buy two parts at double the expense to secure a new cutting surface. Remember this, please: Oliver parts all fit nicely. An Oliver Point fits just as nice as the first one that was put on the plow. Oliver Mouldboards, Standards, Landsides all fit; your Oliver Plow works just as nicely when it is ten years old as it did the first year. We ask you to candidly say if this is the case with any other plow on earth. When you spend your money get all you can for it. The most value that a man gets in anything is an Oliver Plow. Oliver Plows are absolutely guaranteed.

## SEVERE KNOCK-OUT BLOW.

Auditor's Agents Get a Black Eye in Frankfort Court.

The Active Tax-Gatherers Learn Something New in Recent Decisions.

The Auditor's Agents in the different sections of the state are considerably knocked out over a point just discovered by some of them in the opinion delivered a day or two ago by the Court of Appeals in the tax case of the Chicago, St. Louis and New Orleans Railway Company against the Commonwealth, on appeal from the Ballard Circuit Court.

The suit was to secure the assessment of omitted property for the years 1893 to 1899.

The Appellate Court reversed the lower Court's judgment and dismissed the proceeding, holding that the property sought to be assessed, which was the Cairo bridge, was not separable for franchise tax purposes from the other property of the Railroad Company owning and operating it. The Court also held that the five-year statute of limitation applies.

The Court at this point says that Section 4021 of the Kentucky Statutes recognizes, as does the act of 1890, that the right to assess omitted property is limited to five years from the time when it should be assessed.

In numerous instances Auditor's Agents have sought to assess property for periods dating ten years back, and in several instances for longer periods, and these actions are now pending in the lower Courts.

In a case in Franklin county Agent Briggs has filed information seeking to subject to taxation for a period of twenty years back \$40,000 in Gas Company bonds held by the city of Frankfort, and for the same period certain rents collected by the city. The opinion of the Court was delivered by Judge O'Rear.

The Court reaches the same conclusion in the case of the Commonwealth, by its Agent, against Mahala Nutt, from the Fleming Circuit Court, opinion delivered the same day in an individual suit. This opinion was delivered by Judge Nunn.

*The Stomach Is the Man.*  
A weak stomach weakens the man, because it cannot transform the food he eats into nourishment. Health and strength can't be restored to any sick man or weak woman without first restoring health and strength to the stomach. A weak stomach cannot digest enough food to feed the tissues and revives the tired and run down limbs and organs of the body. ## APPETITES

Created and Maintained by Vinol.

THAT THE FOOD IS DIGESTED IS ALSO EQUALLY NECESSARY.

We Recommend Vinol as an Appetite Creator.

WE GUARANTEE THAT VINOL WILL AID DIGESTION.

Vinol is the greatest aid to digestion that we have ever known.

It is because Vinol acts so beneficially upon the stomach that it accomplishes so much good.

Vinol contains the active curative principles that are found in cod-liver oil, without any oil or grease.

These medicinal elements act so favorably upon the stomach, that this organ obtains for itself the elements necessary for creating new flesh, muscle tissue and for making rich red blood.

When the stomach acts easily and naturally, a desire is created for good simple food and a good appetite is the sure result.

With cod-liver oil as formerly taken the medicinal elements which it contained were too often unable to counteract the harm that was done by the obnoxious grease that enveloped them.

Now that in Vinol we have those same elements separated from the vile-tasting fat, we have a tonic and rebuilding that is simply marvelous in its action.

The following is a letter that will explain itself:

"This is to certify that I have used six bottles of Vinol, and have found it of great value as an appetizer and tonic in general debility. I have received so much benefit from its use that I gladly furnish this testimonial in order that others may be induced to give it a trial and prove to themselves its recuperative powers."—MRS. ELIZABETH FRENEY, Waterbury, Conn.

We want every one in this place to know more about our Vinol, how it cures and what it cures. Certainly the greatest tonic and rebuilding we have ever sold.

We, therefore, cordially invite any one interested to call upon us; and we will all to bear in mind that we will gladly refund to any one who is not satisfied with the action of Vinol every cent they pay for it.

### Paine's Celery Compound

The Spring Fortifier and Cleanser, Prolongs Life.

Paine's Celery Compound is today the most reliable and most successful spring medicine in the world. The present enormous demand is the best proof of its popularity. It has almost entirely displaced the common remedies in pill and liquid forms once so common, and in many respects so dangerous to health.

Paine's Celery Compound has been marvelously successful for the simple reason that in every instance it accomplishes more than is

  
W. H. LADD.  
Of Allison, Tenn.

claimed for it. It is the one spring remedy that physicians and the best people endorse. Men and women of wealth and high social position, able to command the services of the most eminent medical men, use Paine's Celery Compound in springtime, having full confidence in its virtues. The experience of tens of thousands have proved that it is wise to use Paine's Celery Compound in the early spring days for the banishment of rheumatism, neuralgia, dyspepsia, nervousness and insomnia. Paine's Celery Compound is, *par excellence*, the great blood purifier; it increases the constructive capacity of the vital fluid, nourishes the tissues and builds up the body. Mr. W. H. Ladd of Allison, Tenn., says:

"For several weeks before I commenced using Paine's Celery Compound I had a tired and all-gone feeling, my blood became impure, and I was daily losing flesh. One of my friends advised me to use Paine's Celery Compound, and I got relief from the first bottle. I am glad to recommend it to all suffering humanity. I believe it has prolonged my life. I am now seventy-two years old."
